The Guide to the County Archives of Indiana, of which this volume for Hamilton County constitutes a part, was prepared for the primary purpose of furnishing officials, students of history, and the citizens of the community with a convenient tool for their use in consulting the county records. It is also hoped the information contained in these volumes will encourage the public in general to take a greater interest in better measures. It is hoped the information presented herein concerning the present housing and care of records and accommodations for persons, who may wish to consult them, will prove to have value for officials and the general citizenry.

The inventory of records was made during the period May 8 to July 9, 1936, under supervision of S. J. Kagan, State Director; Mrs. Blanche McClung, District Supervisor; and Mrs. Hazel Roberts, District Research Editor. The field workers were Albert Jacobs, Lucille Flowers, William Ansberry, and Eugene Robinson, all of Anderson. Cooperation was given by the county and Works Progress Administration officials to make this survey successful.

It is the intention of the editors to present a complete, concise picture of the records in bibliographical form. The inventory is preceded with a number of introductory sections to enlighten the reader concerning facts forming the basis for the records. The entries of the inventory are carried in consecutive numbering for the entire county, while the departments are arranged in alphabetical order. Where it is applicable natural groupings under a subject heading are made within the office. A cross reference index following the inventory is intended to help the reader locate records with the least effort.

HISTORY

Hamilton County, located in the central part of the State, is bounded on the north by Tipton County, on the east by Madison and Hancock Counties, on the south by Marion and Hancock Counties, and on the west by Boone and Clinton Counties. It has an area of 399 square miles.

The first white man to live within the confines of Hamilton County was William Conner. As early as 1818 he lived with his Indian wife and two children about four miles south of the present site of Noblesville on the east bank of White River. Here he engaged in trading with the Indians--exchanging flints, knives, hatchets, beads, and other trinkets for furs. A few times a year he made trips to his brother John's Trading Post, which was located at the present site of Connersville. The furs that he brought here would be sent on down to the Ohio River to be sold; and he would return to his home with more articles and trinkets. These two brothers were kidnapped by the Indians during their boyhood and for many years after lived with them, eventually exerting great influence over their former captors. Another white man named Marshall lived with William Conner about this time, but he went west with the Indians when they were removed from the State.

In March, 1919, George Shirts came to Hamilton County and shortly after was joined by Charles Lacy. These two pioneers were the first of those to come from Connersville. A month later Solomon Finch, the father-in-law of George Shirts, and his wife and five children settled two miles southwest of Noblesville on Horseshoe Prairie. With them

came Israel Finch, William Bush, Amasa Chapman, and James Willason. That fall, John Finch, a brother of Solomon Finch, settled in the county and built and operated a horse mill. Before 1822 the population of the county had grown slowly; the public lands had not been placed on sale, but during the latter part of that year settlers began coming in from the east. Josiah Brooks, Michael and Peter Wise, Silas Moffitt, William Wilkinson, and Aquilla Cross were among those who joined the Horseshoe prairie settlement and entered land on both sides of the river.

Hamilton County is included in that central portion of the State lying south of the Wabash River, which was acquired from the Indians by the Treaty of St. Mary's on October 2-6, 1818, and known as the New Purchase. On January 20, 1820, the State Legislature enlarged Randolph, Franklin, and Jennings Counties and divided the remainder of the New Purchase into two counties; Delaware, east of the second principle meridian, and Wabash, west of it. At this time Delaware County did not have a formal organization; it was under the jurisdiction of adjoining counties, and new counties were formed from time to time within its boundaries.

On December 31, 1821, Marion County was carved out of the western part of Delaware County, and what is now Hamilton County was attached to Marion for judicial purposes. Hamilton County was formed by an act of January 8, 1823, which became effective on April 7. The boundaries were legally defined as: "Beginning on the range line dividing ranges two and three, east of the second principal meridian, at the southwest corner of section seven, in township seventeen and range three, thence running north on the said range line, to the township line dividing

townships twenty and twenty one, thence east on the said township line, to the northeast corner of section five, in township twenty, and range six, thence south on the section line, to the southeast corner of section eight, in township seventeen, and range six, and thence west on the section line to the place of beginning." (Laws of Indiana, 1822-23, p. 100).

Governor William Hendricks appointed William P. Warwick Sheriff of the newly-formed county with authority to hold the first elections and to organize the county government. The election was held in the spring of 1823 at Solomon Finch's cabin near Horseshoe Prairie. William Dyer, Zenos Beckwith, and Solomon Finch were elected Commissioners; J. D. Stephenson was Clerk, Auditor, and Recorder; William Conner was Treasurer, and John Finch and W. C. Blackemore were associate judges. A Coroner was elected in 1827 and a Surveyor in 1828. Zenos Beckwith and R. L. Herman respectively, were the first to hold these offices.

On March 1, 1824, the Commissioners appointed by the State Legislature to select a county seat met at the home of William Conner and approved a site on the east bank of White River--the town of Noblesville--for a seat of justice of Hamilton County. The site had been laid out and platted by William Conner and Josiah F. Polk, in January, 1823.

There are nine townships in Hamilton County; Adams, Clay, Delaware, Fall Creek, Jackson, Noblesville, Washington, Wayne, and White River. The incorporated cities and towns are Sheridan, Carmel, Fishers Station, Arcadia, Atlanta, Cicero, Westfield, and Noblesville. The county was named in honor of Alexander Hamilton, the first Secretary

of the United States Treasury.

The first session of Circuit Court convened at the home of William Conner in August, 1823. W. W. Wick was the presiding judge of the judicial circuit.

The first public building was the jail, constructed of oak logs, with "spiked" door and "ironed" windows, which was ready for use March 17, 1825. The next year the first courthouse in the county, a double round-log cabin, was built. In a few years, the work of the court had grown, necessitating larger quarters. Another courthouse was built on the public square and completed in November, 1831. It was a frame building 32 x 18 feet in size and a story and a half high. In April, 1875, a vote, taken in the county on the question of erecting a new courthouse, resulted adversely. In March, 1877, however, the board ordered the old building sold and went ahead with plans for a new courthouse. The contract was let on December 23, 1877, and the completed building was formally accepted by the county board on July 28, 1879. This courthouse is still in use.

GOVERNMENTAL ORGANIZATION AND RECORDS SYSTEM

The county serves as a unit for the maintenance of peace through the Sheriff; the administration of justice through the judicial circuit; the administration of welfare work through hospitals, infirmaries and poor relief systems; the administration of public works, such as highways, building, and drainage systems; the imposition and collection of taxes; the holding of elections; the administration, to a limited degree, of education; and the enforcement of State laws and decrees.

The General Assembly conferred upon the Hamilton County Board of Commissioners powers of a local administrative character (1 Indiana Rev. Stat., 1852, Ch. 20, Sec. 1). A Board of Finance has jurisdiction over financial matters (Acts 1907; Burns 61-606 [12616]). The elective board, County Council (Acts 1899; Burns 26-502 [5683]), has powers of administrative character on budget and tax levy matters. As a protection to the taxpayers of the county, the Board of Review was established and re-established (Acts 1891; Acts 1919, Burns 64-122 [14205]) to review and correct assessments; and later followed the formation of the Board of Tax Adjustments (Acts 1933; Burns 64-304). In 1936, the General Assembly established the Hamilton County Board of Public Welfare (Acts 1936, Special Session, Burns 52-1117) with jurisdiction over all matters of a charitable character. A Board of Turnpike Directors was established in 1879 and abolished in 1913, the jurisdiction transferred to the County Commissioners (Acts 1879, 1913).

The constitution provides that the State shall, from time to time, be divided into judicial circuits and a Judge and Prosecuting Attorney elected for each circuit (Indiana Const., Art. 7, Sec. 11). The twenty-fourth circuit, Hamilton County, was established in 1889 (Acts 1889-1901; Burns 4-552 [1405]).

The constitution directs that there shall be elected by the people, at the time of holding general elections, a Clerk of the Circuit Court, Auditor,

Recorder, Treasurer, Sheriff, Coroner, and Surveyor (Indiana Const., Art. 6, Sec. 2); and that such other county offices, as may be necessary, shall be elected and appointed in such manner as may be prescribed by law (Indiana Const., Art. 6, Sec. 3). In 1899, the General Assembly prescribed the appointive office of Health Commissioner (Acts 1899; Burns 26-501 [5862]) to protect and administer to the health of the people of Hamilton County; in 1919, the elective office of Assessor (Acts 1919; Burns 64-1101 [14200]) to supervise assessment of property; in 1923, the appointive office of Agricultural Agent (Acts 1923; Burns 28-4911) to further agricultural progress in the county; and in 1933, the appointive office of Highway Supervisor (Acts 1933; Burns 36-1110) to supervise construction and repair of Hamilton County roads.

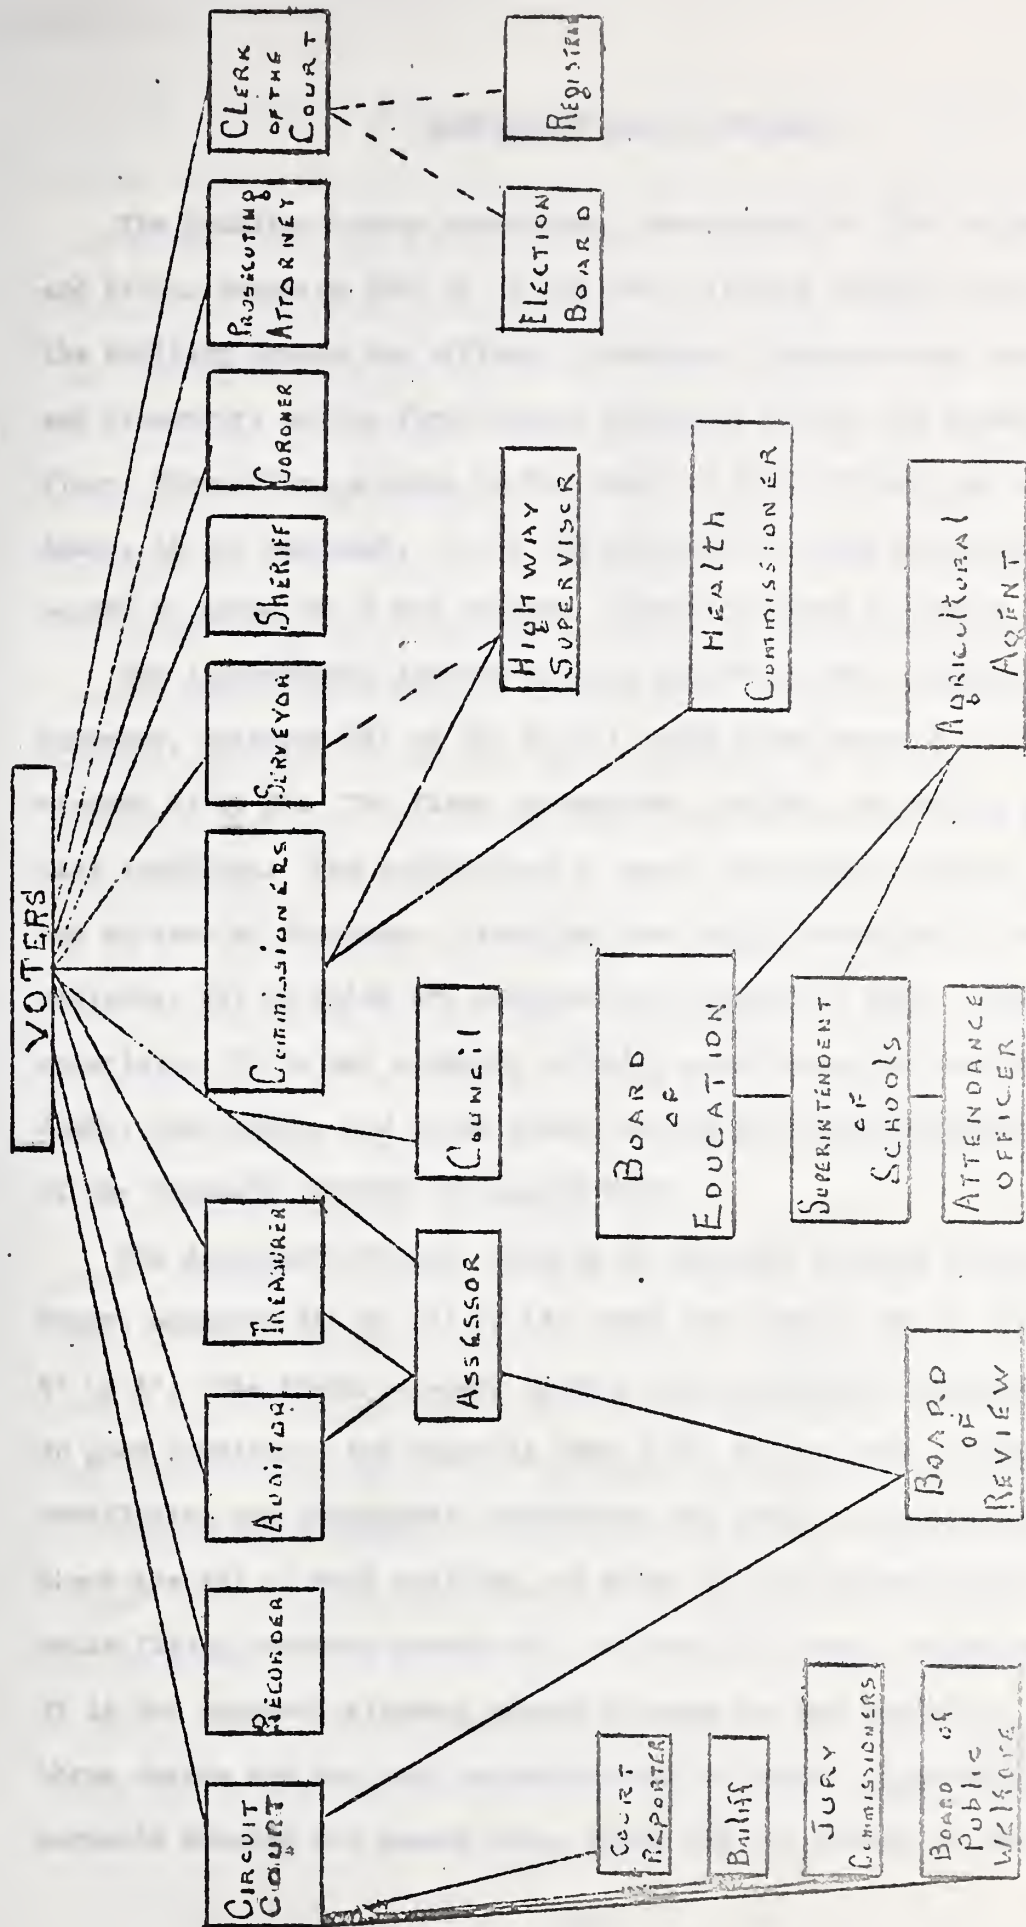

The administration of education in Hamilton County (outside of municipal corporations) is under the jurisdiction of the County Board of Education and the County Superintendent of Schools (Acts 1889, 1911, 1913, and 1927; Burns 28-702 [6507]).

Between the adoption of the Constitution of 1816 and the Constitution of 1851, practically no changes were made in the form of government in Hamilton County. Following this period to the present time, changes were mainly enlargements of the government, such as creation of the above offices. The establishment of each of these offices caused the beginning of separate records as prescribed by the General Assembly under the provisions for each respective office.

As each office was created, the General Assembly prescribed the type of records which should be kept, in many cases listing the particular form of the page. Hamilton County was allowed its own form of accounting until, in 1909, the Legislature established the State Board of Accounts which formulates,

prescribes, and installs a system of accounting and reporting which is uniform for every public office of the same class (Acts 1909; Burns 60-202 [12637]). Under this law, some of the records were combined to eliminate separation, duplication, and overlapping. The law also permits the use of bound looseleaf records in almost all cases where the records are typed. The quality of the paper and ink, binding and rebinding practices are left to the judgment of the Board of County Commissioners, except that a good quality is asked.

Whenever it may be necessary for the preservation of the records for any office of Hamilton County from mutilation, the Board of County Commissioners issues an order directing the officer in charge to copy and transcribe the records for preservation (Acts 1877; Burns 26-204 [6093]). Such records so transcribed have the force and effect of the original record (Acts 1877; Burns 26-635 [6094]).

(BASIC STRUCTURE)

CHART OF COUNTY GOVERNMENT ORGANIZATION — INDIANA

HOUSING OF PUBLIC RECORDS

The Hamilton County courthouse, constructed in 1873 of Bedford limestone and brick, measures 120' by 73' by 50', allowing 432,000 cubic feet in space. The building houses the offices of Auditor, Commissioners, Recorder, Surveyor, and Treasurer, on the first floor; Assessor, Clerk, and Sheriff, on the second floor; three storage rooms on the third or attic floor; and Agricultural Agent, in the basement. It is 75% fireproof, having only enough fireproof vaults to house 2% of the records. There has been no damage to public records.

The Agricultural Agent's bureau, located in the southwest corner of the basement, measures 15' by 12' by 12', with three doors 10' by 3', and two windows 5' by 3'. The floor is concrete, ceiling and walls, plaster, all in fair condition. The ventilation is poor, temperature varies, with some dust but no soot or dampness. Along the west wall, there are 32' of steel and wood cabinets, all of which are occupied with boxes 30" deep, containing unbound materials. It is not crowded, allowing ample space for new shelving. Two desks, two tables, and seven chairs afford fair accommodations to users. All of the bureau's records are housed here.

The Assessor's bureau, located in the east central section of the second floor, measures 14' by 14' by 12', with one door 9' by 3', and two windows 9' by 4'. The floor is wood, in very poor condition; ceiling and walls plaster, in good condition; and there is some dust, but no soot or dampness. The ventilation and atmospheric conditions are good. Along the north and west wall, there are 48' of wood shelving, of which 17' are occupied with bound volumes, while filing cabinets provide 31' of boxes 12" deep, containing unbound materials. It is not crowded, allowing plenty of room for new shelving. One desk and three chairs are the only accommodations to users. Approximately 5% of the bureau's records are housed here, while 95% are stored in the attic storerooms.

The Auditor's bureau, located in the southeast corner of the first floor, comprises a main office and annex. The main office measures 36' by 24' by 14', with three doors 10' by 3', and two windows 9' by 3'. The floor is wood, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric conditions are good, with some dust, but no soot or dampness. Along the walls, there are 568' of wood and steel shelving, of which 350' are occupied with bound volumes, while 268' are occupied with boxes 12" deep, containing unbound materials. Although it is very crowded, there is space for expansion with new shelving. There are fairly good accommodations to users. Approximately 45% of the bureau's records are housed here, while 25% are located in the annex, and 30% are located in southwest corner storage room in the attic. All of the Commissioners' records are housed here. The annex measures 18' by 14' by 10', with one door 10' by 3', and two windows 9' by 3'. The floor is wood, ceiling and walls, plaster, all in good condition. There is poor ventilation, normal temperature, with plenty of dust but no soot or dampness. Along the south and east walls, there are 190' of wood shelving, of which 75' are occupied with bound volumes, while filing cabinets provide 115' of boxes 12" deep, containing unbound materials. Although it is crowded, there is space for expansion with new shelving. Two tables, two chairs, and other office equipment afford fairly good accommodations to users. Approximately 25% of the bureau's records are housed here. It is recommended that new shelving be allotted for the proper housing of these public records.

The Clerk's bureau, located in the south part of the second floor, comprises a main office and annex, also two attic storerooms. The main office measures 54' by 45' by 14', with two doors 9' by 4', and five windows 9' by 3'. The floor is wood, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric conditions are good, with plenty of soot and dust but no

dampness. Along the south and west walls, and in center of the room, there are 860' of open steel and wood roller shelving, of which 544' are occupied with bound volumes, while 316' are occupied with boxes 16" deep, containing unbound materials. It is not crowded, allowing plenty of space for new shelving. Six desks and eight chairs afford fairly good accommodations to users. Approximately 40% of the bureau's records are housed here, while 10% are housed in the annex, and 50% are stored in the attic storerooms. The annex measures 24' by 14' by 10', with one door 9' by 3', and two windows 9' by 3'. The floor is wood, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric conditions are good, with plenty of dust, but no soot or dampness. Along the north, south, and east walls, there are 426' of open steel roller shelving, of which 278' are occupied with bound volumes, while 144' are occupied with boxes 14" deep, containing unbound materials. It is not crowded, allowing plenty of space for new shelving. One table, and six chairs are the only accommodations to users. Approximately 10% of the bureau's records are housed here. The Clerk's west attic storeroom measures 16' by 12' by 12', with one door 8' by 3', and two windows 6' by 3'. The floor is wood, in fair condition; ceiling and walls, plaster, in very poor condition. The ventilation and atmospheric conditions are fairly good, with plenty of dust, soot, and dampness. Along the south and east walls, there are 200' of shelving, of which 32' are occupied with bound volumes, while 100' are occupied with unbound materials. It is not crowded, allowing plenty of space for new shelving. There are no accommodations to users. Approximately 15% of the bureau's records are housed here. The northwest storeroom in the attic measures 30' by 12' by 12', with one door 6' by 3', and four windows 6' by 3'. The floor is wood, in fairly good condition; ceiling and walls, plaster, in very poor condition. The ventilation and atmospheric conditions are fairly good

condition, with plenty of dust, soot, and dampness. Along the walls, there are 1,037' of shelving, of which 553' are occupied with bound volumes, while 384' are occupied with boxes 12" deep, containing unbound materials. It is very crowded, allowing practically no space for new shelving. There are no accommodations to users. Approximately 35% of the bureau's records are housed here, and 45% of the Sheriff's records are stored here.

The Commissioners' bureau, located in the southeast section of the first floor, houses all records in the Auditor's office.

The Health Commissioner's bureau, located in the private office of Dr. Tomlinson, Cicero, houses all records at that address. It is recommended that ample space and equipment be allotted for the proper housing of this bureau and its records in the courthouse.

The Highway Supervisor's bureau, located in the northwest corner of the first floor, measures 30' by 18' by 18', with three doors 9' by 3', and two windows 10' by 3'. The floor is wood, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric conditions are good, with some dust but no soot or dampness. Along the north and west walls, there are 30' of open wood shelving, of which 12' are occupied with bound volumes, while 18' are occupied with boxes 12" deep, containing unbound materials. There is plenty of room for expansion. Two desks, eight chairs, and one table afford fairly good accommodations to users. Approximately 80% of the bureau's records are housed here, while 20% are located in the attic storeroom.

The Board of Public Welfare's bureau, located in the northeast section of the third floor, measures 18' by 12' by 9', with one door 10' by 3', and two windows 9' by 3'. The floor is wood, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric condition varies, and there is no dust, soot or dampness. Along the west wall, there are 50' of steel and wood

shelving, of which 20' are occupied with boxes 30" deep, containing unbound materials. It is very crowded, allowing no space for expansion. There are no accommodations to users as space will not permit. All of the bureau's records are housed here. It has been recommended that this office be moved to the northwest corner of the basement, and will be located there after the remodeling is completed.

The Recorder's bureau, located in the northwest section of the first floor comprises a main office and annex. The main office measures 30' by 20' by 14', with two doors 10' by 3', and two windows 10' by 3'. The floor is tile, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric conditions are good, with some dust, but no soot or dampness. Along the north, south and east walls, there are 510' of open steel and wood roller shelving, of which 450' are occupied with bound volumes, while 45' are occupied with boxes 18" deep, containing unbound materials. There is plenty of space for expansion with new shelving. Four desks, and other office equipment afford good accommodations to users. All of the bureau's records are housed here.

The Superintendent of Schools' bureau, located in the northwest corner of the first floor, measures 25' by 15' by 15', with two doors 9' by 3', and two windows 10' by 3'. The floor is cement, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric conditions are good, with some dust, but no soot or dampness. Along the east, west, and south walls, there are 60' of wood and steel shelving, of which 2' are occupied with bound volumes, while 22' are occupied with boxes 24" deep, containing unbound materials. There is very little space for expansion with new shelving. Several desks, eight chairs, and other office equipment afford fairly good accommodations to users. All of the bureau's records are housed here.

The Sheriff's bureau, located in the southwest corner of the second floor, measures 20' by 12' by 9', with two doors 10' by 3', and two windows 10' by 3'. The floor is wood, ceiling and walls, plaster, all in fairly good condition. The ventilation and atmospheric conditions vary, and there is some dust, soot, and dampness. Along the north, south, and east walls, there are 50' of wood shelving, of which 12' are occupied with bound volumes, while 28' are occupied with boxes 12" deep, containing unbound materials. It is crowded, allowing no space for expansion. One counter, a desk, three chairs, and other office equipment afford fairly good accommodations to users. Approximately 55% of the bureau's records are housed here, while 45% are located in the attic northwest storeroom.

The Surveyor's bureau, located in the northeast corner of the first floor, comprises a main office and annex. The main office measures 30' by 25' by 14', with four doors 9' by 3', and two windows 10' by 4'. The floor is wood, ceiling and walls, painted plaster, all in good condition. The ventilation and atmospheric conditions are good, and there is some dust, but no soot or dampness. Along the southwest and north walls, there are 135' of wood shelving, of which 100' are occupied with bound volumes, while filing cabinets provide 300' of boxes 4" deep, containing unbound materials. There is room for expansion. Three large tables and two chairs afford good accommodations to users. Approximately 80% of the bureau's records are housed here, while 20% are stored in the southwest attic storeroom. There are no public records housed in the annex.

The Treasurer's bureau, located in the southwest corner of the first floor, comprises a main office, annex, and vault. The main office measures 30' by 18' by 14', with three doors 10' by 3', and four windows 9' by 3'.

The floor is tile, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric conditions are good, and there is some dust but no soot or dampness. Along the east and west walls, there are 95' of wood shelving, of which 76' are occupied with bound volumes, while 19' are occupied with boxes 18" deep, containing unbound materials. Although it is crowded, there is plenty of space for expansion. Two desks and two counters afford good accommodations to users. Approximately 25% of the bureau's records are housed here, while 35% are stored in the annex, 10% are located in the vault, and 30% are stored in the southwest attic storeroom. The annex measures 20' by 14' by 10', with one door 10' by 3', and two windows 9' by 3'. The floor is wood, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric conditions are good, with some dust but no soot or dampness. Along the north and east wall, there are 366' of steel roller and wood shelving, of which 326' are occupied with bound volumes. It is crowded, allowing plenty of space for expansion. Three tables and three chairs are the only accommodations to users. Approximately 35% of the bureau's records are housed here. The vault measures 14' by 10' by 8', with one door 6' by 3', and no windows. The floor is wood, ceiling and walls, plaster, all in good condition. The ventilation and atmospheric conditions are normal, with some dust, but no soot or dampness. Along the east and west walls, there are 60' of open wood shelving, of which 10' are occupied with bound volumes, while 20' are occupied with boxes 18" deep, containing unbound materials. It is crowded, allowing no space for expansion. One table and safe are the only accommodations to users. Approximately 10% of the bureau's records are housed here.

The southeast attic storeroom measures 16' by 14' by 14', with one door 7' by 2 2/3', and two windows 8' by 3'. The floor is wood, ceiling and walls, plaster, all in very poor condition. The ventilation and atmospheric conditions are very poor, with plenty of dust, soot, and dampness. Located in the southeast and southwest corners, there are 114' of shelving, of which 80' are occupied with bound volumes, while filing cabinets provide 34' of boxes 10" deep, containing unbound materials. Although it is very crowded, there is space for new shelving. Approximately 15% of the Assessor's records are stored here.

The southwest attic storeroom measures 20' by 16' by 12', with one door 8' by 3', and two windows 8' by 3'. The floor is wood, in fair condition; ceiling and walls, plaster, in very poor condition. The ventilation and atmospheric conditions vary, and there is plenty of dust, soot, and dampness. Along the north, and south walls, also in center of the room, there are 550' of shelving, of which 350' are occupied with bound volumes, while 100' are occupied with boxes 18" deep, containing unbound materials. It is very crowded, allowing no space for expansion with new shelving. There are no accommodations to users. Approximately 80% of the Assessor's records, 30% of the Auditor's records, 20% of the Highway Supervisor's records, 20% of the Surveyor's records, and 30% of the Treasurer's records are stored here. It is recommended that ample space and equipment be allotted for the proper housing of these public records.

AGRICULTURAL AGENT

Whenever twenty or more residents of a county who are actively interested in agriculture file a petition, the County Board of Education files said petition with the County Council for appropriation of salary and expense; the Board of Education then applies to Purdue University for the appointment of an Agricultural Agent whose appointment is made annually.

In accordance with the law an Agricultural Agent has been appointed for Hamilton County. It is his duty, under the supervision of Purdue University, to co-operate with movements for the advancement of agriculture, give advice to farmers, and aid the county Superintendent of Schools in giving practical education in agriculture and domestic science (Acts 1913, Burns 28-4911 70457).

ASSESSOR

The Assessor's office, created by the General Assembly, is non-constitutional.

The Assessor is nominated by primary and elected for a four-year term in the fall election, there being no prohibition against successive terms in office. Qualifications are established by law; he must have been a continuous freeholder of Hamilton County for not less than four years before the date of election, and he must provide a five thousand dollar bond, with two or more good and sufficient freehold sureties approved by the Auditor, who also ^{also} administers the oath of office. The statutes direct that he shall be subject to the orders and directions of the State board of tax commissioners. He may be removed from office for misfeasance, upon notice and hearing, and may appeal to the Circuit Court from unfavorable hearings below (Acts 1919, Burns 64-1101 /142007).

His duties are to assess omitted property and inheritances, to appraise each school plant, to instruct the township assessors, to carry out the orders of the State tax board, and to act as president of Hamilton County Board of Review (Acts 1919, Burns 64-1101 /142007).

1. Introduction

The purpose of this paper is to present a new method for the estimation of the parameters of a multivariate normal distribution. The method is based on the use of the generalized likelihood ratio test (GLRT) and the generalized likelihood ratio test (GLRT) is used to test the hypothesis of the equality of the parameters of the two distributions. The method is applied to the data of the 1970 census of the United States and the results are compared with the results of the other methods.

CORONER

The Coroner is a constitutional officer, elected biennially. There is no prohibition against continuous tenure of office. He is nominated by primary and elected at the general election. The Coroner must furnish a five thousand dollar bond. (Indiana Const., Art. 6, Sec. 2).

The Coroner investigates violent deaths. He can arrest the Sheriff in case that becomes necessary, and performs the duties of the Sheriff when the Sheriff is interested, absent, or otherwise incapacitated from serving. (2 Indiana Rev. Stat. 1852; Acts 1871, 1879 Special Session, and 1933; Burns 49-2901 to 49-2915 [11866-118807]).

COUNCIL, COUNTY

The County Council is composed of seven members. Hamilton County is divided into four councilmanic districts with one councilman elected by the electors of each district, and three other elected at large by the electors of the entire county (Acts 1899; Burns 26-502 5683). They hold office for four years (Acts 1899; Burns 26-505 5866). The Council elects its president (Acts 1899; Burns 26-507 5868), the Auditor acts as clerk (Acts 1899; Burns 26-509 5870), and the Sheriff executes the orders of the Council (Acts 1899; Burns 26-510 5871).

The power of fixing the tax rate for county purposes, and for all purposes where the rate not fixed by law is required to be uniform throughout the county, is vested in the Council, as well as the power of making appropriations of money to be paid out of the county treasury (Acts 1899; Burns 26-515 5876).

The Council passes on all budget estimates submitted by county officials (Acts 1899; Burns 26-520 5881), as well as emergency appropriations (Acts 1899, 1907, 1913; Burns 26-521 5882).

The Council has the exclusive power to authorize the borrowing of money for the county and the issuing of bonds (Acts 1899, 1921, 1929; Burns 26-532 5893). No sale or purchase by the county of real estate of the value of \$1,000 or more shall take place without authorization of the Council (Acts 1899; Burns 26-534 5895).

HIGHWAY SUPERVISOR

The county highway system was, at one time, administered by the Superintendent of Highways who was appointed by the County Commissioners for a term of four years, and many records bear his name and title. This office was established in 1913 and abolished March 1, 1933, and the powers and duties given to the Surveyor (Acts. 1913, 1933; Burns 36-1113). In order to provide for necessary supervision in counties warranting more attention than the Surveyor can give, the Board of County Commissioners of any county of the State of Indiana has the right to employ any person other than the Surveyor as supervisor of county highways, and such officer is called the Highway Supervisor (Acts, 1933; Burns 36-1110). The Board of Commissioners of Hamilton County has appointed a separate Highway Supervisor.

The Highway Supervisor of Hamilton County has general supervision of the repair of all highways, bridges, and culverts of the county. It is his duty to see that the mail routes are kept open. He must attend the annual road school at Purdue University. (Acts. 1933; Burns. 36-1101 to 36-1109).

REVIEW, BOARD OF

Hamilton County has an annual board for the review of assessments and the equalization of the valuation of real and personal property. The board is composed of the Assessor, Treasurer, Auditor, and two freeholders of opposite political parties, appointed by the judge of the Circuit Court. The Assessor is the president and the Auditor is the secretary of the board. (Acts 1919, 64-1201 ~~/14204/~~⁰ 69-1295 ~~/14208/~~).

From 1881 to 1919 the duties of reviewing and equalizing tax assessments were performed by a County Board of Equalization consisting of the County Commissioners and four freeholders appointed by the circuit judge. (Acts 1881, pp. 611). The law of 1919 superseded this act and renamed the body the Board of Review.

It is the duty of the Board to make changes in the valuation of the property of the township or any taxing unit within the township, and to determine the rate per cent to be added or deducted in order to make an equitable equalization of taxes throughout the county. The board also has the power, in proper cases, to correct the valuation of any particular tract or lot. (Acts 1919, Ibid.).

If the board shall find the aggregate assessment too high or too low or unequal, it may set aside the assessment of the whole county, or township, or taxing unit therein, and order a new assessment. (Acts 1919, Ibid.).

260. (RECORD), 1891--. 3 vols.

Record of minutes of proceedings, showing date of meeting, lists of property valuation, names, addresses, description of property, assessed valuation, signatures of board members. Arranged chronologically. Handwritten on printed form. 450 pp. 18 x 12 x 3. C.C., Auditor's office.

SCHOOLS, SUPERINTENDENT OF

The Superintendent of Schools is elected by the township trustees for a four-year term. The candidate must have had five years' successful experience as a teacher in the public schools, and at the time of his election he must hold a superintendent's license. He must give bond for five thousand dollars. (Acts 1889, 1911, 1913, and 1927; Burns 28-702 6507).

The Superintendent exercises general supervision of the schools of Hamilton County. He visits schools while they are in session, conducts teachers' institutes, and calls meetings of teachers of Hamilton County schools once each month in the school year. His jurisdiction is limited to unincorporated communities. He makes out the basis of apportionment of school revenues from the enumeration. Official records of other county officers shall be open to his inspection, and he shall bring suit against them for neglect of duty. He presides over the county Board of Education and receives applications for school aid relief. (Acts 1933; Burns 28-901 to 28-911).

SHERIFF

The Sheriff is a constitutional officer chosen for a two-year period and is not eligible to hold office more than four years in any period of six years. He is a political officer, nominated by primary and elected in the regular election. He must give bond for five thousand dollars. (2 Indiana Rev. Stat. 1852; Burns 49-2901 [11858]).

The Sheriff arrests without process all persons who, within his view, commit any crime or misdemeanor, delivers them before a justice of the peace of Hamilton County and holds them in his custody until the cause of such arrest has been investigated; pursues and commits to jail all felons; and executes all process directed to him by legal authority. It is his duty also to protect persons in danger from mobs ^{and} possible lynchings. (2 Indiana Rev. Stat. 1852; Burns 49-2808 [11859-11865]).

SURVEYOR

The Surveyor, or county engineer as he is sometimes known, is a constitutional officer, nominated by primary and elected in the general election for two years. He may be re-elected indefinitely. He must give bond in a sum fixed by the Board of County Commissioners. (Indiana Const., Art. 6, Sec. 2; 1 Indiana Rev. Stat. 1852; Burns 49-3301 [11954]).

The Surveyor performs all duties required of him as civil engineer in the work of Hamilton County, including the preparation of plans and specifications for, and general supervision of all bridges, turnpikes, roads, ditches, drains, and levees. He establishes boundaries of farms and lots, and takes acknowledgments of mortgages and deeds for the conveyance of real estate. He removes after examination, the obstruction of any stream, and institutes foreclosure actions for sums due the county. (Indiana Rev. Stat. 1852; Acts 1875, 1895, 1901, 1911, 1925, and 1933; Burns 36-1110, 49-3308 to 49-3317 [11961-11970], 40-3319 to 49-3322 [11972-11975], and 49-3327 to 49-3328 [11990-11991]).

TAX ADJUSTMENT, BOARD OF

The Board of Tax Adjustment of Hamilton County consists of one member of the County Council selected by the Council, and six members appointed by the judge of the Circuit Court. The appointees must have the following qualifications: One shall be a township trustee; one shall be a mayor or president of the board of trustees of an incorporated town; one shall be a member of the city board of education; and three shall be resident freeholders of the county at large, not holding any public office. Not more than four of the members of the board shall belong to the same political party. (Acts 1933, Burns 64-304).

It is the duty of the board to examine, and if it deems necessary, revise, change, or reduce, but not increase, any tax levy and any corresponding items of the budget on which the tax levies are based, and apportion the total of all of the levies so that the total levy on property within any municipal corporation for which the property therein is taxable, shall not exceed the total rate as provided by law. In the event of an emergency, a vote of at least five members is required to fix the tax levy at a higher rate than the law provides. (Ibid.)

320. RECORD, 1936---. 1 vol.

Record of meetings, showing details of each meeting, decisions made on tax levies, time of each meeting, names of members, and who appointed. No index. Typed. 250 pp. 14 x 12 x 1. C.C., Auditor's office.

TREASURER

The Treasurer is a constitutional office elected for a term of two years and is not eligible to serve more than four years in any period of six years. He is nominated in the primary and elected in the regular election. He is required to execute his official bond of not less than the amount of money which may come into his hands at any time during the term. (Indiana Const., Art. 6, Sec. 1).

The Treasurer receives all money coming to Hamilton County and disburses the same on the proper orders. He keeps fee books and cash books and makes quarterly reports to the Auditor. At the expiration of his term of office he gives a sworn statement to the Auditor showing specifically the amount of fees collected, and deposits with the Auditor all orders redeemed. He makes a monthly statement to the Treasurer of State, collects property and poll taxes and State license fees, sells all property found on any dead body remaining unclaimed for sixty days, and diverts to the State the proceeds from the sale of estates when the heirs are unknown. (Indiana Const., Art. 6, Sec. 1; 1 Indiana Rev. Stat. 1852; Acts 1853; Burns 49-3117 [11906-11920]).

The following table shows the results of the experiments conducted on the effect of the temperature of the water on the rate of the reaction between potassium permanganate and oxalic acid. The experiments were conducted at different temperatures, and the rate of the reaction was measured by the time taken for the color of the solution to change from purple to colorless.

Experiment 1: The reaction was conducted at 20°C. The time taken for the color to change was 10 minutes.

Experiment 2: The reaction was conducted at 30°C. The time taken for the color to change was 5 minutes.

Experiment 3: The reaction was conducted at 40°C. The time taken for the color to change was 3 minutes.

Experiment 4: The reaction was conducted at 50°C. The time taken for the color to change was 2 minutes.

Experiment 5: The reaction was conducted at 60°C. The time taken for the color to change was 1 minute.

From these experiments, it can be seen that the rate of the reaction increases as the temperature of the water increases. This is because the molecules of the reactants have more energy at higher temperatures, and therefore they are more likely to collide and react.

TURNPIKE DIRECTORS, BOARD OF

The County Commissioners, by virtue of their office, were constituted a board of turnpike directors, by an Act of 1879. The management and control of all free turnpikes in the county were vested in the board. The county was divided into three districts, and each director had personal supervision of one district. They had the power to appoint suitable persons to superintend the work of repairs; contract for labor and materials; enter upon lands to take gravel and to give certificates of payment; and to appoint a clerk of the board (Acts 1879).

An Act of 1905 superseded the Act of 1879 and all its amendments, which did not materially change the functions of the turnpike directors. (Acts 1905).

An act passed in 1913 repealed the act of 1905 and abolished the Turnpike Directors as an administrative board, transferring their jurisdiction to the Board of Commissioners, with authority, at their discretion, to appoint a Superintendent of Highways (q. v.) in counties having more than two hundred miles of highways. In event the Board of Commissioners does not make such appointment, and in all other counties, the Surveyor exercises such supervision. (Acts 1913).
